

We are beyond excited to finally celebrate our wedding nuptials with friends and family. Though we've postponed twice during the pandemic, we're committed to throwing a party everyone can feel safe and comfortable attending. In this spirit, we will be observing the following with regards to COVID. We invite those with concerns to contact us:

- 1.** We are happy to share that all those who have been invited to the wedding have been vaccinated. We expect all guests to be up to date on their booster shots.
- 2.** The Inn at Villanova and the synagogue are following state and local public health guidance. If an uptick in cases occurs around the date of the wedding, we will be obligated to observe those guidelines (which may include wearing a mask indoors).
- 3.** Dinner and dancing will take place indoors. The venue has ample outdoor space and we plan to make good use of the grounds no matter what.
- 4.** We request guests test for COVID at least 24 hours before the wedding. A negative test will help ensure a risk-free celebration. At home test kits can be purchased at most local drug stores and free kits are available for mail order online at [covid.gov/tests](https://www.covid.gov/tests).
- 5.** Finally, if you test positive or feel unwell on the day of the wedding, we ask you to stay home, rest, and focus on getting better. We completely understand your decision and don't want you to feel obligated to attend while putting other's health and safety at risk.
